

## Medical certificate

Volcano UltraMarathon COSTA RICA 2021

This certificate is mandatory for the ULTRA modality. The organization will accept other models of medical certificates as long as they specifically indicate that the athlete is in physical condition to perform the Volcano UltraMarathon Costa Rica modality.

This medical certificate must be completed, with the date and signature of the doctor, who will also apply his seal and indicate his professional number. This certificate has a maximum age of one year before the start of the test and must be delivered in the medical examination prepared by the organization.
